REGULATIONS

There are two kinds of regulations that students should consider: General Regulations of the University and Regulations of the Faculty.

General Regulations of the University are applicable to all qualifications and programmes offered by this University. These regulations are set out in part 1 of the General Calendar of the University, and deal with admission to the University, registration as student, requirements for passing, examinations, etc.

Students should note that the General Regulations are applicable to all qualifications offered in the Faculty of Theology.

Regulations of the Faculty apply specifically to degree and other programmes of this Faculty and are expounded in this Calendar.

The regulations according to which a student registers will be valid for the duration of his/her studies for that particular qualification.

It is the responsibility of students to be well acquainted with the General Regulations as well as the Faculty Regulations.

BACCALAUREUS THEOLOGIAE

The following baccalaureus degree is conferred in the Faculty on NQF Level 7:

Degree	Min. period of study	Abbreviation	Study code	Total Credits

Information

The B.Th. is a professional programme that runs over four years. It is the ideal programme for students who wish to enter the ministry with a degree. The B.Th. offers a core curriculum for a variety of churches, covering the entire field of theology. Some churches require only three years of training. Even in these cases students need to register for the B.Th. degree [see B.A. (Theology)].

A candidate for the degree B.Th., who desires to be trained as a minister in his/her church, must consult with his/her denomination to determine whether the elective modules chosen are the correct selection required by his/her church so that, where necessary, the Curatory of his/her denomination can guide him/her.

Qualifying tests involve a knowledge of the Bible and Church doctrine and must be completed successfully in order to qualify for the degree.

The curriculum for this degree covers eight semesters (four academic years) and the student should obtain at least 512 credits (128 credits per year) as prescribed.

Where students are allowed a choice of modules, they should make certain that the class and examination timetables do not clash.

Requirements for admission

It is the responsibility of students to make sure that they comply with the general regulations for admission. To be admitted to the B.Th. programme a student should have obtained a Senior Certificate with

endorsement and an M-count of 28 (in 2007 or before) or in terms of the National Senior Certificate (from 2008) an admission point of 28 and the language of instruction of choice (Afrikaans or English) at achievement level 4 (=50%).

Students who do not meet this requirement may with an admission point (AP) of 23-27 and the language of instruction of choice (Afrikaans or English) passed at achievement level 4 (=50%), be admitted to the B.Th. Extended programme or the University Diploma in Theology.

<p>Degree cum laude</p> <p>(i) In the compulsory (fundamental and core) modules a combined mark of at least 75% must be obtained.</p> <p>(ii) In the minimum number of elective modules, an average mark of at least 70% must be obtained.</p> <p>(iii) With regard to (i) and (ii) the credit value of every module will operate as a factor in calculating the percentage.</p> <p>(iv) The degree must be obtained in five years.</p>

MASTER'S PROGRAMMES

GENERAL INFORMATION

The M.A. (Theology) and M.Th. (for the latter see Magister Theologiae [M.Th.]) are of similar quality; however the M.Th. lends itself to greater diversity. This depends on the route whereby a student normally arrives at the M.A. and M.Th. In the case of the M.A. the student usually had a hierarchically structured former training, that is, he/she started earlier specialising in only one or two theological subjects. In the case of the M.Th. the student was up to honores level evenly exposed to all the theological subjects. This difference entails that a broader range of possibilities can be offered in the M.Th. programmes.
