- Writing project reports (monthly, quarterly, and annual) according to the needs of various funders, e.g. CRS Headquarters (Baltimore), CRS and SACBC ART and OVC programme managers, and CDC.
- Providing technical and language editing on quarterly project reports from 14 anti-retroviral treatment (ART) projects and monthly project reports from 33 projects supporting orphans and vulnerable children (OVC).
- Providing information with regard to TB and HIV activities in the CRS/SACBC ART programmes, when requested, to programme managers at CRS, the SACBC and CDC.

6.3 Collaborating with Departments of Health:

- Liaising and negotiating with the National and various Provincial Departments of Health re TB infection control and management re the CRS/SACBC health programme;
- Representing CRS and the SACBC at the National Department of Health's meetings for South African stakeholders involved with TB infection control and management - that include national and provincial managers and health care workers, NGO/FBO and research partners, and various related;

6.4 Coordinating and providing training:

- Sourcing, arranging and coordinating ART and TB-related training for both clinical and lay health care workers in the CRS/SACBC programme for groups of 50 to 200 people.
- Providing TB infection control training to project managers and health care workers.

6.5 Arranging and coordinating meetings:

- Arranging and coordinating workshops, meetings and conferences for groups of 10 to 150 people.
- Hosting and making logistical arrangements for various guests of CRS and the SACBC, that visit the country for different reasons, e.g. workshops/meetings/conferences, research, and for journalists.

6.6 Distributing information:

- Sourcing and providing CRS/SACBC health facilities with information on new health policy and health policy changes, and health-related information and education materials (posters, pamphlets and DVDs).
