PROFESSIONAL PROFILE

I am a hardworking and resourceful Statistics and Economics professional, with good academic credentials. I have an extensive understanding of economic theory and its practical implications. I am committed to continuously improve the quality standards when performing research of the industry and statistical/economic data analysis. I have a consistent and evidence based track record in exceeding performance expectations through employing best ethical practices. Thus, I am looking for a reputable company/research institution/university to use my knowledge and skills to ensure sustainability and growth of my knowledge and the aforementioned potential employers.
