## 1. GENERAL INFORMATION

---

**N.B. It is important that students know the admission requirements as well as the general University regulations and the Faculty regulations that apply to their degree/diploma programmes.**

### 1.1 University entrance requirements

#### **OPTION 1 Study code: 1300**

Students who wish to register for a **B.A. – 3 YEAR CURRICULUM** at the University, must meet the following requirements:

- Senior certificate **with** endorsement (Matriculation Exemption) or a three year qualification obtained from a tertiary institution.
- M-Score of 28 points or more on grade 12 subject symbols.
- Grade 12 Mathematics (HG **E** or SG **C**) for Mathematics
- Grade 12 Mathematics (SG **C**) for Economics.

#### **OPTION 2 Study code: 1395**

Students who do not meet the above-mentioned requirements, will be admitted or referred to a **B.A. – 4 YEAR CURRICULUM**. To register for studies in this curriculum, students must meet the following requirements:

- Senior Certificate **with** endorsement (Matriculation Exemption)
- M-Score of 24-27 points
- Grade 12 Mathematics (HG **E** or SG **C**) for Mathematics
- Grade 12 Mathematics (SG **C**) for Economics

#### **OPTION 3 Study code: 1014**

Students who do not meet the above-mentioned requirements, will be admitted or referred to a **4 YEAR CURRICULUM IN THE HUMANITIES and will register for OCCASIONAL studies**. To register for studies in this curriculum, students must meet the following requirements:

- Senior Certificate **without** endorsement (Matriculation Exemption)
- M-Score of 18-23 points
- Grade 12 Mathematics (HG **E** or SG **C**) for Mathematics
- Grade 12 Mathematics (SG **C**) for Economics

Students have to apply the formula below to their Grade 12 results to calculate their M-Score to see which of the above-mentioned study options are applicable:

SYMBOL OBTAINED IN MATRIC		A	B	C	D	E	F
LEVEL	Higher Grade	8	7	6	5	4	3
ACHIEVED	Standard Grade	6	5	4	3	2	1

### 1.2 General University regulations

The general University regulations that apply to all students and faculties are set out in the University's "General" Calendar book. Among the general regulations are those that deal with matters such as:

- what qualifications one must have to be admitted to study at the University
- how to register for a course. (These regulations include details on how to change courses, register for simultaneous courses, and whether credit will be given for work done at other tertiary institutions)
- what is required to pass a course, or to be awarded a distinction mark. (These regulations include rules and details about tests, examinations and special examinations, rules about marks, rules that apply if a student misreads the examination timetable, and rules about readmitting students to or excluding students from courses)

### 1.3 Faculty regulations

Faculty regulations relate specifically to the degree and diploma programmes offered by the Faculty of the Humanities. These regulations are to be found in this book.

### 1.4 General requirements to be admitted as a student to the Faculty

Generally students may register for courses offered by the Faculty of the Humanities if they qualify to study at the University.

## **2. BACHELOR DEGREES**

---

**2.1** The Bachelor of Arts (B.A.) (from the Latin *Baccalaureus Artium*) take a minimum of three years to complete.

### **2.2 Explaining the terms, subjects, modules, codes and credits**

The Faculty of the Humanities on the Qwaqwa Campus offers only one programme, a General B.A. degree. Students have various choices amongst a number of "subjects" within this programme, subject to institutional requirements. For example, the B.A. requires students to have at least two major subjects. These are subjects that students take for all three years of study. Students will also have minor subjects; these are subjects that they study for only one or two years or semesters.

Each subject is divided into "modules", which are more-or-less self-contained parts of that subject. For example, Political Science is a subject. It offers the following two first year modules: "Introduction to Politics" (PTW114) and "Introduction to World Politics and Global Governance" (PTW124). These two modules make up the first year subject of Political Science.

Each module is known by a code that contains useful information. To take first year Political Science again: the code for the module "Introduction to Politics" is PTW114. The PTW part gives the subject, which is Political Science. The first digit of the number (i.e. the first 1) gives the year of study: it is a first year module. The second digit (i.e. the second 1) gives the semester: odd numbers indicate first semester, even numbers indicate second semester. For example, PTW124 is a second semester module). The last digit gives the number of credits the module carries: multiply the last digit 4 by four, giving 16: PTW114 carries 16 credits.

Students must know how many credits each module carries, as each subject requires a certain number of credits for a student to pass.

### **2.3 The order in which students may take modules**

The requirements for being able to take a module are set in the General Regulations (Reg. A8). In general, unless Departments permit modules to be taken in another order, students are accepted to later modules

only if they have successfully completed earlier, preliminary modules. Module choices may also be restricted due to lecturing time table requirements.

#### **2.4 Additional requirements for admission to certain subjects or courses**

The following requirements must be met for admission to certain subjects or courses:

1. For EKN108: Grade 12 Mathematics (SG **C**) is a prerequisite. Subject to approval by the Chairperson/Head of the Department of Economics, a student may gain admission with proof that an equivalent course in Mathematics or Statistics has been passed.
2. For Business Management OBS234 and OBS364: Grade 12 Mathematics (SG **C**) is a prerequisite. Subject to approval by the Departmental Chairperson, an equivalent course (in Mathematics or Statistics) may also enable a student to register for the above-mentioned courses.
3. For Mathematics: For admission to module WTW114, the minimum requirement is Mathematics (higher grade **D**) and for WTW134 the minimum requirements is Mathematics (higher grade **E**) or Mathematics (standard Grade **C**).
4. Mathematics WTW134 and WTW144 are intended for students who wish to take only one year of mathematics. It does not provide access to second year mathematics.

#### **2.5 Sequence of subjects and prerequisites**

Specific prerequisites are set for some subjects, as is the case for the subjects listed below. Other subjects in this Faculty are independent semester or year subjects which can be taken in any sequence and without preconditions, but it is not advisable to do so.

- Remember the admission requirements for subjects stipulated above previously.

## 2.6 Regulations for the shift from 8 credit modules to 16 credit modules

Students must take note that the modules listed below, under "new codes", are worth 16 credits each as from 2008, and are combinations of old 8-credit modules. Students may repeat 8-credit modules in 2008; in subsequent years they are required to register for the appropriate 16-credit modules (see "New codes").

### English

Regulations for conversion as from 2008 are outlined below. The following equivalent course codes will apply.

New codes	Old codes
A code can be used only once in a conversion and all conversions are subject to the approval of the head of department.

## **Sociology**

### **Students with outstanding credits in Sociology.**

The following regulations apply to the 2007 modules listed below:

A student who has one of the following 2007 modules listed below outstanding, may register for it again in 2008 and 2009 in accordance with the 2007 code.

The student must consult the lecturer concerned about the lectures and tutorials which have to be attended in the equivalent new module.

The evaluations for the outstanding module will be written at the same times as that of the equivalent new module.

These regulations are applicable only in 2008 and 2009 after which students will have to fall in with the new modules.

### CAREER PROSPECTS

The Bachelor of Arts degree offers students a broadly formative education that is useful in any occupation requiring a culturally developed perspective. It provides students who intend specialising in a particular discipline with a meaningful context; it is beneficial to people in any leadership position.

### 1. ADMISSION REQUIREMENTS FOR A B.A. – 3 YEAR CURRICULUM

Students who wish to register for a **B.A. – 3 YEAR CURRICULUM** at the University, must meet the following requirements:

- Senior certificate with endorsement (Matriculation Exemption) or a three year qualification obtained from a tertiary institution.
- M-Score of 28 points or more on grade 12 subject symbols.
- Grade 12 Mathematics (HG **E** or SG **C**) for Mathematics.
- Grade 12 Mathematics (SG) for Economics.

### 2. CURRICULUM

The curriculum is made up of

#### 2.1 Three compulsory skills modules (68 credits)

CODE	NAME OF MODULE	CREDITS
VBL108	Skills and Competencies in Lifelong Learning	32
MTH108	Mathematical Literacy	32
BRS111	Computer Literacy	4

2.2 two major subjects in which students specialise over the three years. In each of these two subjects students choose modules carrying 96 credits (= 32 credits per year x 3 years).  
(modules in 2 subjects x 96 credits = 192 credits)

2.3 Compulsory Language (32 credits)

CODE	NAME OF MODULE	CREDITS
ENG198	English Academic Skills	32

2.4 modules carrying a minimum of 92 credits that students choose from the remaining subjects and modules listed below. The major subjects that students choose may oblige them to take particular modules in other subjects. Where this is the case with a specific subject, the particular modules that must be taken are mentioned.  
(chosen modules = 92 credits)

As the degree requires a minimum of 384 credits, students should register each year for modules carrying about 128 credits

### 3. THE LIST OF SUBJECTS AND MODULES

Below is the list of subjects and modules from which students must choose their two major subjects [see 2.2 above] and the modules to complete the degree [see 2.3 and 2.4 above]. The number of credits each module carries is also listed.

**2. CURRICULUM**

The curriculum is made up as follows over a period of 4 study years:

**Development modules (128 credits)**

- (1) Two compulsory **development modules** (64 credits) offered in the first year of study.
- (2) Two compulsory **development modules** (64 credits) offered in the second year of study.

**Please note:**

- (1) As both ALC108 and ALC208 are at level 4 of the NQF, these subjects do not allow students to register for second-year modules in English.
- (2) Students who have to do either ALC108 or/and ALC208 as part of the development modules of an extended curriculum will not be given exemption of these two subjects on the grounds of their having passed ENG198.

**MAINSTREAM MODULES (384 credits)**

The following mainstream modules must be included in the curriculum:

- (3) Students must choose one compulsory language subject (ENG198) (32 credits).
- (4) At least two compulsory major subjects, including a language or languages (a total of at least 96 credits in each subject, 2 x 96 = 192 credits)
- (5) A number of modules (a minimum of 156 credits) from the lists below.
- (6) Computer Literacy (BRS111)
