GENERAL UNIVERSITY RULES

1. GENERAL INFORMATION

Note: It is important that students know the General Rules and the Faculty rules that apply to their degree/diploma programmes.

1.1 General Rules

The General Rules that apply to all students and faculties are set out in the General Rules for Undergraduate Qualifications, Postgraduate Diplomas, Bachelor Honours Degrees, Master's Degrees, Doctoral Degrees, Higher Doctorates, Honorary Degrees and the Convocation for 2020 (hereafter referred to as the General Rules). Copies are available from the Registrar on request or on the UFS website at the following link: https://www.ufs.ac.za/docs/default-source/policy-institutional-documents/2019-general-rules.pdf?sfvrsn=97dcb421_0

1.2 Faculty rules

Faculty rules that relate specifically to the degrees offered by the Faculty of the Humanities are set out in this book.

1.3 Degrees offered

The three Exit Levels of postgraduate qualifications offered by the Faculty of the Humanities are:

- (1) Postgraduate Diplomas: Exit Level 8
- (2) Bachelor of Arts Honours (BAHons), Bachelor of Social Science Honours (BSocSciHons): Exit Level 8
- (3) Master of Arts (MA), Master of Social Science (MSocSci), Exit Level 9 and
- (4) Doctor of Philosophy (PhD): Exit Level 10.

1.4 General admission requirements to postgraduate programmes

As a general rule, students are admitted to postgraduate studies and to each higher level of postgraduate study only if they fulfil the university requirements for registration as set out in the General Rules, have completed the preceding qualification required for admission to the degree, with a mark of 60% or more, and are accepted to the qualification they wish to study by the applicable academic head of department. Some departments require a mark of 65% or 70% in the preceding qualification required for admission to the degree.

1.5 The BAHons, BPsychHons and BSocSciHons degrees

Unless otherwise specified, the BAHons, BPsychHons and BSocSciHons degrees require one-year full-time or two-year part-time study in a particular field. In general, the degrees require students to select and study modules for assessment by examination or exam-equivalent assignment, and to research and write a research report. The specific details of each module differ, and students must acquaint themselves carefully with the requirements of the modules they choose.

1.6 The MA and MSocSci degrees

Students generally have a choice between

- (1) a two-year structured MA or MSocSci ;and
- (2) a MA/MSocSci by dissertation.

The two-year, full-time, structured MA/MSocSci requires students to select and study modules for assessment by examination or exam-equivalent assignment and to conduct research and write a mini-dissertation.

The MA/MSocSci by dissertation requires students to write a substantial research dissertation on a topic agreed upon with the academic head of department or a supervisor he/she appoints. In certain qualifications, a number of interrelated publishable manuscripts or published articles in an accredited academic journal are accepted instead of a dissertation.

As the specific requirements of qualifications differ, students must acquaint themselves carefully with the requirements of the qualification they choose.

1.7 The PhD degrees

Unless otherwise specified, a doctorate is awarded to a MA/MSocSci graduate who undertakes independent study and writes a research thesis of noteworthy substance. In certain qualifications, a body of interrelated publishable manuscripts or articles published in accredited journals could be accepted instead of a thesis. Students must acquaint themselves with the specific requirements of their qualification.

1.8 Progression Rule

Students who are admitted to postgraduate programmes are generally expected to pass all the modules for which they registered in a particular study year. A student will normally only be allowed to proceed with a programme if she/he has passed at least 75% of the modules required in an academic year.

1.9 Faculty Readmission Appeals Committee

General Rules A20, A45, A70 and A100(e) for postgraduate qualifications stipulate that all appeals pertaining to the implementation of the General Rules are considered by the relevant Faculty Readmission Appeals Committee of a faculty and the decision of this committee will be final. Only the Faculty Readmission Appeals Committee can decide to refer particular appeals regarding uncertainties and grey areas to the rule to the University Appeals Committee, for a final decision.

The process and procedures of the Readmission Appeals Committee of the Faculty of the Humanities is available on the faculty website. It remains the student's responsibility to acquaint him/herself of the process and procedures of the committee.

1.10 Recognition of credits and exemption from modules

Applications for recognition of credits and exemption from modules in terms of the General Rule A27; A52; A82 and A112 will be considered by the Faculty of the Humanities while primarily taking cognisance of the academic integrity and quality of the qualifications of the Faculty. Recognition will be given to different modules if passed within specific periods determined from the date on which the module is passed to the date of application for recognition. The standard period for recognition of modules is five (5) years.

This will be applicable to the following students:

- i) Students who interrupted their studies with a year or more, and who want to continue in 2020.
- ii) Students who transfer from other universities or from another faculty within the UFS, to a qualification in the Humanities
- iii) Students who, from 2017, transfer from one degree in the Faculty of the Humanities to another degree in the faculty.

Students who transferred from other universities or faculties within the UFS, or between qualifications in the Faculty of the Humanities in 2016 and before, will be excluded from this policy.
